

induction brazing carbide tip

United Induction Heating Machine Limited

We are experienced in Induction Heating, induction heating machine, Induction Heating equipment. They are widely used in induction heating service, induction heat treatment, induction brazing, induction hardening, induction welding, induction forging, induction quenching, induction soldering, induction melting and induction surface treatment applications
<http://www.uihm.com>

Induction Brazing temperature can be controlled from 500 C to 1800 C for most of the brazing applications.

UIHM induction brazing machines are made to replace conventional brazing methods, with more reliable / repeatable brazing without flame and smoke.
