

Frequency induction heating equipment and quenching machine stainless steel quenching

United Induction Heating Machine Limited

We are experienced in Induction Heating, induction heating machine, Induction Heating equipment. They are widely used in induction heating service, induction heat treatment, induction brazing, induction hardening, induction welding, induction forging, induction quenching, induction soldering induction melting and induction surface treatment applications
<http://www.uihm.com>

Our UM-100AB-RF super audio induction heating equipment and quenching machine on the quenching diameter 70mm, length 600mm shaft quenching, material: 45 #, hardness depth of 2 mm, hardness 50HRC quenching produced axis has a uniform surface hardness, less oxide, etc.
