

Induction Heating Applications Show 3

United Induction Heating Machine Limited

We are experienced in Induction Heating, induction heating machine, Induction Heating equipment. They are widely used in induction heating service, induction heat treatment, induction brazing, induction hardening, induction welding, induction forging, induction quenching, induction soldering, induction melting and induction surface treatment applications
<http://www.uihm.com>

Induction Heating is very popular for various of applications such as Annealing, Bonding, Rubber/Metal Brazing, Cap Sealing, Carbide Tipping, Catheter Tipping, Crystal Pulling, Curing, Forging, Getter Firing, Hardening, Heat Treating, Hot Forming, Levitation, Material Testing, Melting, Metal-glass Sealing, Metal-plastic Staking, MOCVD, Pin Sealing : UIHM Induction Heating Machines have been used in huge area. They are very credible and Efficiency.

Applications:

roller heating

tong jointing

copper jointing

copper canal jointing

copper canal anneal

winch quenching

auto hardware anneal

muzzle face quenching

heating pipe jointing

saw blade jointing

bits jointing

rivet heating

falchion edge quenching

Aluminum-Plastic pipe heating

clutch quenching

diamond saw jointing

gear quenching

SCARFING mouth brazing

Mr magnetic motor coil heat

Bar heating

Bar heating

35*35 tool welding

220MM Cutter knife brazing

saw welding
