

cambered induction coil for heating copper wire heads

United Induction Heating Machine Limited

We are experienced in Induction Heating, induction heating machine, Induction Heating equipment. They are widely used in induction heating service, induction heat treatment, induction brazing, induction hardening, induction welding, induction forging, induction quenching, induction soldering induction melting and induction surface treatment applications
<http://www.uihm.com>

Advantage: one induction coil can be used for heating different wire heads of motor / stator, easy for operation.

Disadvantage: heating speed is not quick enough, may need bigger power of induction heater.

Equipment: UM-30AB-UHF or UM-20AB-UHF
